

SWRL Graph Legend

Node Types

Class (OWL Class)

Represents ontology classes

fisa:Wall

Instance (SWRL Variable)

Variables bound to individuals

?w

Literal (Constant Value)

Concrete values

true

Edge Types

Class Assertion (rdf:type)

Links class to instance - dashed line

fisa:Building

rdf:type

?b

Property - Antecedent (IF)

Conditions - black, normal weight

?b

bot:containsZone

?s

Property - Consequent (THEN)

Inferred conclusions - blue, thick

?w

fisa:hasRequirement

fisa:feuerbeständig
